

Cost and Configuration Estimates

The management companion to the product policy set: what a seat costs, the commitment floor, and the work between signup and first client use.

Product (document)	Cost per seat per month	Commitment floor	Admin setup effort [E]	Time to first client use [E]
ChatGPT Business (chatbox, 03)	\$20 annual, \$25 monthly [P]	2 seats	2-4 hours: signup confirmations, workspace settings, seats	About a week, including training
Claude Team (chatbox, 04)	\$20 annual, \$25 monthly; premium seat \$100/\$125 [P]	2 seats (tier runs to 150)	2-4 hours, plus the retention question for the vendor at signup	About a week, including training
Microsoft 365 Copilot (add-in suite, 05)	\$30 enterprise add-on; \$21 Business add-on (\$18 promo to Sep 30, 2026); both plus the base Microsoft 365 license [P]	Annual commitment	2-5 days: the tenant-permissions audit gates enablement; web grounding off	2-6 weeks; the audit, not the vendor, sets the pace
Cursor with Privacy Mode (harness, 06)	\$40 Teams tier (team-wide Privacy Mode lives here) [P]	Per seat, monthly or annual	4-8 hours: enforce Privacy Mode, covered-model and indexing decisions, per-seat setup	1-2 weeks; training is the long pole
Embedded AI Features (cross-product card, 07)	No separate cost; arrives inside software the firm already buys	None	None; the card's rule is live now	Immediate; 30 minutes of training per user
CoCounsel (platform, conditional, 08)	\$104-\$639 by plan, coverage, and term; example \$639 solo all-states, \$519 on 3-year [C]	1-year term; self-serve caps at 10 attorneys	Days of configuration, after the Section 3 ask list is negotiated	Weeks to months; the ask list is the schedule
Lexis+ AI / Protege (platform, conditional, restricted, 09)	\$250-\$500 all-in reported; \$125-\$275 as an add-on to an existing Lexis subscription [R]	Quote-based; assumes a LexisNexis base subscription	Days, including memory-feature configuration, after the ask list	Weeks to months; the ask list is the schedule
Vincent (platform, not approved, 10)	Reported spread too wide to budget on (\$69-\$399) [R]	Quote only	Not applicable	Not applicable until vLex signs the DPA; price is moot before then
Harvey (platform, contract-verified, 12)	~\$1,200 base reported; ~\$399 smaller-firm tier; ~\$2,400 with the Lexis bundle [R]	Reported 20-25 seats on 12-month terms: ~\$288,000/year floor, plus 30-60% implementation	Days: order form, Vault governance, walls, the Extended AI Features decision	Months; sales cycles reported near 6 months
Legora (platform, contract-verified, 13)	~\$250 reported (list ~\$3,000 per seat per year); Agent Pro now bills on consumption, vendor-announced [R]	Reported 10 seats: ~\$30,000/year floor	Days: order form, residence controls (storage, retention, keys), wall verification	Weeks to months; negotiation plus configuration

[P] vendor-published price [C] vendor configurator (real range; the number depends on configuration) [R] press-reported, not vendor-published: verify on the firm's own quote [E] firm estimate from the document's Section 3 checklist. Prices retrieved 2026-08-10; promotional and reported figures move. The rule: published and configurator prices can go in a budget; reported prices can only go in a question for the vendor. Evidence and sources: Exhibit 20.
